Robinson Structures Ltd is a Steel Construction Specialist who provides 'concept to completion' build projects to the Agricultural, Commercial and Industrial sectors. The company is a family business which has grown into one of the most recognised names within the steel industry.

Purpose of role:

To coordinate and facilitate the smooth workflow of the fabricators/welders workshop by ensuring they have the appropriate steels for each job/contract that they are working on.

To organise the steel lots as they come off the saw /drill lines so that they are identifiable to the contract, to crane cut sections into the 15 Fabrication bays and empty the steel when needed. To liaise with the supervisor and prep coordinator to ensure smooth running of the factory.

Responsibilities/Duties:

- Review the production plan with the Supervisor, so that daily targets are clear.
- Follow the Daily Procedures as follows:
 - Check contract and lot number of drawing issue sheets against contract being cut on the saws
 - Check length of bars and keep similar lengths together
 - Sling steels in a safe manner ensuring all lifting equipment being used has correct tags and weight limits for the steels is within its lifting capacity.
 - Using 10 Tonne cranes lift steel into bays or storage area.
 - Tick off steels against the cut list to ensure the quality procedure is adhered to.
 - Identify missing parts and keep the supervisor informed of issues found.

Skills, Experience and qualities:

- Certificated to drive a Counter Balance fork lift Licence Min 2.5
- Certified to use 5-10 Tonne Gantry cranes
- Highly organised and methodical in approach to working practises.
- Ability to read numbers accurately with high attention to detail.
- Diligent and proactive – always thinking ahead.
- Good communication skills
- Highly Health and Safety conscious
- Ability to deal with the physical requirements of the role, due to Manual Handling (90% of Time) Must be physically Fit.
- Highly level of accuracy in the use of Metric Tape Measure
- Willingness to Learn
- Flexibility
- Steel industry experience
